**Fairness in dealing:** We believe that sustained success can be achieved by building Win - Win partnerships. We shall forge the same and be transparent and honest in our dealings with all our stakeholders. Ethics are non-negotiable.

# Operations

Navjyoti operates over 300 warehouses across India. Our day-to-day operations are monitored through a three-tier check system being firstly at warehouse level, secondly at branch office level and finally at management / head office level with a view to enhance efficiency and ensure risk free environment.

We largely operate out of leased warehouses which are often taken into our fold through long term as well as medium and short term leases. Every leased warehouse is subject to stringent health check for infrastructure and environment.

Besides operating through leased warehouses, we are also constructing and operating our own Agri Logistic Parks (ALPs). Each of our ALP's typically have storage area of approx. 1 lac sq.ft. besides boasting of other exclusive amenities. Our ALPs are equipped with best in class digital weighbridges with weighing capacity of upto 100 mts., alongwith ample truck parking space. All of our ALP's have a fully equipped testing and certifying laboratory, internet ready office spaces, conference room to enable a conducive and efficient working atmosphere. Our ALP's also house guest rooms for accommodation of visitors. They also house seperate pantry, dining and public conveniences. All our ALP's are always under IP-connected CCTV surveillance besides twenty-four seven professional deployed security guards. So far we have completed 8 such ALPs and intend to have about 50 numbers of them operational in the coming years.

### Our ALP Locations are:

1. Akola, Maharashtra
2. Chitradurga, Karnataka
3. Davangere, Karnataka
4. Dewas, Madhya Pradesh
5. Harda, Madhya Pradesh
6. Hoshangabad, Madhya Pradesh
7. Ravui bannur, Karnataka (Upcoming)
8. Ratlam, Madhya Pradesh
9. Unjha, Gujarat

## Laboratory Testing & Certification Services

Our testing services comprise of agri commodity testing, food and water testing, soil testing and pharmaceutical testing. Our technologically connected labs locations across India, help serve all in the agriculture sector. Through our testing services, we assist in minimizing risk, ensure global quality needs while also enhancing productivity.

Our, laboratory testing facility is designed to serve customers including farmers, traders, manufacturers, exporters and government sectors. Our quality control services ensure compliance and sustainable future for all customers. The Laboratory practices global quality management system compliance as per ISO/IEC :17025 : 2005 and GLP to provide regulatory compliance practices standards

We offer testing and assaying services across the country through our state-of-the-art central laboratory in Ahmedabad coupled with multiple satellite labs mobile labs, which are spread across various strategic locations throughout India. Our satellite laboratories are specifically designed to deliver fast and accurate agri commodity testing across rural procurement areas for variety of agri commodities and their parameters, while our mobile labs are reliable, efficient and agile field QC (physical) investigators.

We are designed to offer global standard "one stop solution" for multi disciplinary testing service in the field of chemical and biological testing through state of art technical set up by following national and international standards like IS , ISO, Agmark, FSSAI, IP, AOAC. We believe to deliver fast, accurate, reliable and transparent testing facilities to meet various stringent Global & national quality standards requirement of customers.

Synopsis of our testing capabilities:

1. **Food & Agriculture:** Physical Analysis (Grain inspection), Chemical analysis, Microbiological analysis, Micro nutrients, Pesticide analysis, Contaminants, Nutritional value analysis, Vitamins, Mycotoxins.
2. **Water:** Chemical analysis, physical analysis, Active anions, Heavy metal analysis, Pesticide Analysis, PAH, PCB, Microbiological examinations.
3. **Drugs & Pharmaceutical:** Pharmacopoeia testing, Assay of active ingredients, Stability study
4. **Microbiological testing**
5. **Dissolution testing**

## Collateral Management

Navjyoti is entrusted by various banks and financial institutions to act as custodians for their lending to the agriculture sector. Our strategically planned and technologically connected locations, coupled with experienced work force has gained us high repute and reliability. Besides, our innovative initiatives and commitment to stakeholders enables us to handle businesses of any size and scale across the country with quality service and competitive prices.

Our collateral management solutions are based on best functional and technical foundations. We have a well established structure to manage risk and maximise value for all parties within the transaction. We provide a single window for all services related to collateral management, viz. Quantity and quality assurance, fumigation and other storage-related services. We also provide early warning signals on price fluctuations, keep constant checks on commodity quality and keep our clients updated about the status

We have been facilitating secured warehouse receipt financing through our nationwide network of state-of- the-art ALP's and also in leased storage facilities.
